Professional summary

Software Developer with 3+ years of experience developing production web and mobile applications using React.js, React Native, Node.js, and REST APIs. Experienced in building and maintaining YourFarm, a live agritech mobile app available on the Google Play Store. Skilled in API integration, responsive UI development, state management, and backend services across agritech, ERP, laboratory, and enterprise applications. Seeking opportunities in React Native, React.js, or Full-Stack Development.

Experience

Software Developer (React Native & React Js) July 2025 – Present
Animeta Agritech Pvt ltd *Coimbatore, TN*

- Developed and maintained YourFarm's production web and React Native mobile applications, building scalable features and responsive user interfaces across multiple platforms.
- Contributed to the YourFarm React Native mobile application available on the Google Play Store, developing new features, integrating APIs, managing application state, and improving overall mobile performance.
- Developed and enhanced React.js web applications and WebAdmin modules, implementing business workflows, reusable components, form validations, responsive UI, and REST API integrations.
- Integrated RESTful APIs and backend services for key business workflows including products, orders, payments, users, dairy operations, and other agritech processes across web and mobile platforms.
- Worked closely with the development team on production issue resolution, debugging, testing, code reviews, performance improvements, and feature enhancements, helping deliver reliable and maintainable applications.

Junior Software Developer (React Js) Jun. 2023 – Jun. 2025
Pinnacle Systems. *Tirupur, TN*

- Developed and maintained production web applications using React.js, Node.js, and MySQL, implementing business features, responsive interfaces, and reusable components.
- Contributed to the development and enhancement of textile ERP applications, building modules and workflows for business operations including raw material tracking, inventory, and process management.
- Integrated RESTful APIs and backend services using Node.js, handling data flow between frontend applications and MySQL-based backend systems.
- Developed interactive and responsive user interfaces using React.js, tailwind css, and modern JavaScript, with a focus on usability, reusable components, and maintainable code.
- Collaborated with developers and business teams to understand requirements, troubleshoot application issues, test features, optimize existing functionality, and deliver reliable software solutions.

Technical Skills

Languages: JavaScript, SQL
Frontend : React.js, React Native, HTML5, CSS3, Material UI, Tailwind CSS ,Prisma ORM
State Management: Redux, Redux Toolkit, RTK Query
Back end: Node.js, RESTful APIs
Database: MySQL , PostgreSQL
AI Developer Tools: ChatGPT, Claude, Google Gemini, GitHub Copilot
Tools Platforms: Git, GitHub, Postman, npm
Core Expertise: Responsive UI Development, Mobile App Development, API Integration, Reusable Components, Form Validation, Debugging, Testing, Code Reviews

PROJECTS

ERP Software for Textile | *React.js, Node.js, MySQL*

- Developed a textile ERP platform using React.js, Node.js, and MySQL to manage raw materials including yarn, fabric, and accessories across business workflows.
- Built responsive user interfaces and reusable React components for inventory tracking, material management, and operational processes.
- Integrated RESTful APIs with the frontend and backend services to support reliable data management and real-time business operations.

Lab Software for Testing Laboratory | *React.js, Node.js, MySQL*

- Developed a laboratory management system using React.js, Node.js, and MySQL for sample registration, testing workflows, and result tracking.
- Implemented automated result computation and validation workflows to reduce manual processing and improve data accuracy.
- Built report generation and tracking features with REST API integration for efficient laboratory operations and record management.

Construction Management Software | *React.js, Node.js, MySQL*

- Developed a construction management platform using React.js, Node.js, and MySQL to manage leads, quotations, and project workflows.
- Implemented responsive interfaces and reusable components for managing customer information, quotations, projects, and business processes.
- Integrated RESTful APIs to manage application data and support end-to-end project lifecycle tracking.

YourFarm Website | *React.js, REST API*

- Developed and maintained the live YourFarm website using React.js with responsive interfaces and reusable components for agricultural service management.
- Integrated RESTful APIs to support product, user, service, and business workflows while maintaining reliable frontend data handling.
- Implemented UI enhancements, form validation, bug fixes, and performance improvements to deliver a consistent and user-friendly web experience.

YourFarm Mobile Application | *React Native, REST API*

- Developed and maintained a production React Native agritech mobile application for farmers and agricultural services, with the application available on the Google Play Store.
- Implemented mobile features, responsive UI components, navigation, state management, and REST API integrations to support core YourFarm business workflows.
- Worked on application enhancements, bug fixes, performance improvements, and production issue resolution to deliver a reliable mobile experience.

YF Partner Mobile Application | *React Native, REST API*

- Developed a React Native partner application supporting YourFarm business operations and providing mobile access to partner-focused workflows.
- Integrated RESTful APIs and implemented reusable mobile components, state management, form handling, and responsive interfaces.
- Enhanced application functionality through feature development, debugging, testing, and performance improvements across production workflows.

EDUCATION

Nandha College of Technology — Erode, TN

Bachelor of Engineering, Mechanical Engineer — *July. 2013 – May 2017*

CERTIFICATIONS

- **Core Java**
- **Full Stack Developer**
